Reported Catch vs Total Allowable Catch (TAC)

Notes:

[^] Catch reported through TDB02 Catch Disposal Records (CDRs) and does not include any unreported catches or outstanding catches (there is an expected processing delay of 2-3 weeks from when a Fish Receiver completes a CDR and AFMA receives and processes it). All catch data reported as 'tails' is converted to whole weight using the conversion factor of 2.677.

* In accordance with AFMA's Information Disclosure Policy, catch amounts have not been provided as the catch reported is from less than 5 boats. AFMA continues to closely monitor individual catches against quota holdings.
