

Ref: NT2024-04

20 June 2024

Dear Sir/Madam,

Comment on a proposed management action in line with subsection 24HA(7) of the Commonwealth *Native Title Act 1993*

On behalf of the Protected Zone Joint Authority (PZJA) Secretariat, I am writing to you regarding the proposed management action to vary licence conditions to authorise the sunset sector in Torres Strait Finfish Fishery (TSFF) to take a total allowable catch amount of Spanish mackerel and coral trout in the Torres Strait Finfish Fishery for the 2024-25 fishing season. Further details of the proposed action can be found in **Attachments A-C: Class Notification under the *Commonwealth Native Title Act 1993***.

Under subsection 24HA(7), the PZJA must give the recipient of this notice an opportunity to comment on these proposed actions within a period defined by this notice. Accordingly, please provide any comment on the proposed management actions by **close of business 19 July 2024**, in writing, to the addressee below:

Australian Fisheries Management Authority
Att: Steven Harris
PO Box 376
Thursday Island
Queensland 4875

Email: FisheriesTI@afma.gov.au

Since 2019, AFMA has been publishing native title notifications on the PZJA website. With your agreement, AFMA is also seeking to publish any comments received in response to proposed management actions. Please let us know if you have any concerns about this.

If you have any problems meeting the timeframe given to comment or have any additional questions, please call me on 07 4069 1990 or email FisheriesTI@afma.gov.au.

Yours sincerely

Steven Harris
Senior Manager - Torres Strait Fisheries
Australian Fisheries Management Authority

A-C Class Notification under the Commonwealth *Native Title Act 1993*

Class Notification under the Commonwealth *Native Title Act 1993*

Licence condition variations to authorise the sunset sector in Torres Strait Finfish Fishery (TSFF) to take a total catch amount of Spanish mackerel and coral trout in the Torres Strait Finfish Fishery for the 2024-25 fishing season (NT2024-04).

Date of Issue: 20 June 2024

SECTION OF NTA	Section 24HA (7) of the Commonwealth <i>Native Title Act 1993</i>
DEPARTMENT/AGENCY	Australian Fisheries Management Authority (AFMA) on behalf of the Torres Strait Protected Zone Joint Authority (PZJA)
CONTACT NAME	Steven Harris
E-MAIL	FisheriesTI@afma.gov.au
TELEPHONE NO.	(07) 4069 1990
REFERENCE NO.	Licence condition variations to authorise the sunset sector in the Torres Strait Finfish Fishery (TSFF) to take a total catch amount of Spanish mackerel and coral trout in the Torres Strait Finfish Fishery for the 2024-25 fishing season (NTN2024-04).

The Protected Zone Joint Authority intends to do the following act:

TYPE OF APPROVAL	Licence condition variation under Section 22 of the Commonwealth <i>Torres Strait Fisheries Act 1984</i> (the Act).
NUMBER OF APPROVALS	Licence condition variation for up to seven Sunset Licences.
UNDER WHAT ACT	<i>Torres Strait Fisheries Act 1984</i> (The Act).

The approvals, if granted, will permit the following activity to happen:

NATURE OF ACTIVITY	<p>Access to the Torres Strait Finfish Fishery (TSFF) is reserved for Traditional Inhabitants (the TIB sector) and fishers that lease annual sunset licences from the Torres Strait Regional Authority (TSRA).</p> <p>Sunset licences may be held by non-traditional inhabitants and allow for a certain amount of catch to be taken each season. TSRA lease sunset licences and catch allowances on behalf of Traditional Inhabitants.</p> <p>The proposed management action, to which this notification relates, would authorise the sunset sector in the TSFF to take a total catch amount of Spanish mackerel and coral trout in the 2024-25 fishing season. The total catch for the sunset licence sector is shared across sunset licences and prescribed in licence conditions. The licence conditions have the effect of limiting the amount an individual licence holder may take of Spanish mackerel, coral trout and a basket of other reef-line species. At present there are a total of three sunset licenses proposed to operate in the 2024-25 season.</p> <p>The total catch proposed to be made available to the sunset sector for the 2024-25 fishing season is 44 tonnes of Spanish mackerel, 15 tonnes of coral trout and 0 tonnes of other reef-line species.</p> <p>Based on agreed total allowable catches (TACs) for the 2024-25 fishing season, the remaining catch that would be available to the TIB sector is 33 tonnes for Spanish mackerel and 108 tonnes for coral trout at the commencement of the season.</p>
--------------------	---

	<p>TIB catches for other reef-line species are not limited.</p> <p>The total catch to be made available to the sunset sector may be increased throughout the 2024-25 season to a maximum of 77 tonnes for Spanish mackerel, 123 tonnes for coral trout, and 15 tonnes for other reef-line species.</p> <p>Please note that this notification, together with previous notifications, are available here: https://www.pzja.gov.au</p>
LOCATION OF ACTIVITY	<p>The extent of the Finfish Fishery to which the proposed prohibition will apply is described in Item 4, Schedule 2 of the <i>Torres Strait Fisheries Regulations 1985</i> (the Regulations). The Regulations can be accessed online at: https://www.legislation.gov.au/Details/F2016C00633</p>
MAPS/PLANS	<p>Attachment B shows the area of the Torres Strait Finfish Fishery, as described in Item 4, Schedule 2 of the <i>Torres Strait Fisheries Regulations 1985</i>.</p>
NAME OF REGISTERED NATIVE TITLE CLAIMANT GROUP/S OR NAME OF REGISTERED NATIVE TITLEBODY CORPORATE	<p>Torres Strait Regional Seas Claim Kaurareg People #1 Kaurareg People #2 North Eastern Peninsula Sea Claim Group Torres Strait Regional Sea Claim Northern Cape York Group #1 Torres Strait Regional Seas Claim PNG Gas Pipeline ILUA - Cape York Region Northern Peninsula Area Regional Council Northern Cape York Group #1 ILU Ergon Energy and Northern Cape York Group #1 ILUA Cape York Land Council Aboriginal Corporation Gur A Baradharaw Kod Torres Strait Sea and Land Council</p>

Background Information

Total Allowable Catch limits for the Torres Strait Finfish Fishery (TSFF)

At its out-of-session meeting on 29 May 2024, the Torres Strait Protected Zone Joint Authority (PZJA) agreed that, for the 2024-25 fishing season (commencing on 1 July 2024) of the Torres Strait Finfish Fishery, the **Spanish mackerel Total Allowable Catch (TAC) will be 77 tonnes** and the **coral trout TAC will be 123 tonnes**.

This PZJA decision was based on consideration of advice from both the Torres Strait Finfish Fishery Resource Assessment Group (FFRAG) and Finfish Fishery Working Group (FFWG). Records of these meetings are publicly available on the PZJA website (www.pzja.gov.au/torres-strait-finish-groups) and the notice sent to licence holders advising of the decision is at **Attachment C**.

Spanish mackerel is a shared stock with Papua New Guinea and can be subject to a formal shared TAC under the *Torres Strait Treaty 1985*. However, on 25 July 2023 AFMA and the PNG National Fisheries Authority met and agreed that no catch sharing arrangements for Spanish mackerel (or for the prawn or pearl shell fisheries) would be made for the 2024-25 fishing season.

AFMA monitors TSFF catches through the season by receiving catch reports from both Sunset and TIB fishers through the Torres Strait Fish Receiver System and publishes these reports on the PZJA website: <https://www.pzja.gov.au/fishery-catch-watch-reports>.

Background to leasing catch to the sunset licence sector of the TSFF

Access to the TSFF is reserved for Traditional Inhabitants (the TIB sector) and fishers that lease sunset licences (the sunset sector) from the Torres Strait Regional Authority (TSRA). Sunset licences may be held by non-traditional inhabitants and allow for a certain amount of catch to be taken. Each year since 2008-09 the TSRA, on behalf of traditional inhabitants, has leased (temporary transfers) these sunset licences, with specified Spanish mackerel and coral trout catch amounts. Since 2017/18 TSRA have also leased catch allowances for other-reef-line species. Sunset licences are granted and varied by AFMA, as the PZJA licensing delegate.

As advised by the TSRA, the process for recommending catch amounts to be leased to the sunset sector is as follows:

- a) The TSRA Finfish Quota Management Committee (FQMC) provides advice to the TSRA Board on the leasing of finfish catch allocations. The FQMC is a formal advisory committee of the TSRA Board established under section 142 M of the *Aboriginal Torres Strait Islander Act 2005*. The FQMC comprises TSRA Board Member and a community fisher representative for the four main finfish communities (Erub, Masig, Mer and Ugar) and 4 representatives of the Zendath Kes Fisheries Limited. The Committee is Chaired by the TSRA Board Fisheries Portfolio member.
- b) Each year the FQMC makes key recommendations to the TSRA Board on:
 - the amount (t) of catch to be set aside for TIB fishers
 - the amount (t) of catch to be leased out
 - the minimum price per kilo for each of the main species in the fishery
 - the names of the applicants who were successful through the Expression of Interests process, the catch in kilograms (kg) allocated to them and the price per kg to be charged.
- c) The TSRA Board of elected community representatives make the decision based on the advice and recommendations of the FQMC.
- d) When making a recommendation on allocations for the TIB sector the committee considers:
 - historic and current log book and docket book returns supplied by the PZJA

- FQMC members' informed estimate of current fishing effort and likely changes to fishing effort in their communities.

The TSRA then applies to AFMA ahead of each TSFF fishing season to amend sunset licence conditions to reflect the TSRA Board decision on how much catch is to be leased to the Sunset Licence sector together with specific amounts for each licence.

Proposed catch leasing to the sunset licence sector for the 2024-25 fishing season

The TSRA FQMC provided advice regarding sunset sector leasing for the 2024-25 season at its meeting on 31/05/2024.

The TSRA Board endorsed the leasing recommendations of the FQMC for the 2024-25 fishing season at its meeting held on 04 June 2024. In line with the TSRA Board decision, on 12 June 2024 the TSRA applied to AFMA for the following catch amounts to be made available to the sunset licence sector for the 2024-25 fishing season; 44 tonnes of Spanish mackerel, 15 tonnes of coral trout and 0 tonnes of other reef-line species across all licences (**Table 1**).

Table 1 Proposed catch amounts (in tonnes) to be made available to the Sunset licence sector for the 2024-25 fishing season and agreed TACs.

	Spanish mackerel	Coral trout	Other reef-line species
Total Allowable Catch (tonnes)	77	123	NA
Available catch - TIB	33	108	Not applicable
Available catch - Sunset	44	15	0

How may the proposed decision impact Traditional Inhabitants?

Following the Australian Government buyout of all TSFF licences held by non-traditional inhabitants in 2008, arrangements for leasing catch to the sunset licence sector were established. The aim being to maintain market supply and generate revenue for the benefit of Traditional Inhabitants whilst catches in the TIB sector increase overtime. In 2021-22 leasing generated \$120 000 of revenue and the TSRA Finfish Trust Account balance as at 30 June 2023 was \$2.4 million (*Torres Strait Regional Authority Annual Report 2022-23*).

To support growth in TIB catches overtime, it is intended that the amount of catch leased leaves enough of the TAC for the TIB sector having regard for recent TIB catch trends and any expected catch increases. The TSRA leasing process outlined above is designed to capture industry and community views on appropriate catch levels to be both reserved for the TIB sector and leased to the sunset sector.

For the 2022-23 fishing season the TIB sector caught 3.6 tonnes of Spanish mackerel and 4.3 tonnes of coral trout.

17 June 2024

Dear Torres Strait Finfish Fishery Licence Holder,

Finfish Fishery catch limits for 2024-25 season

I am writing to advise you of the agreed Total Allowable Catch (TAC) limits for commercial fishing in the Torres Strait Finfish Fishery (the Fishery) for the 2024-25 season.

At its out-of-session meeting on 29 May 2024 the Protected Zone Joint Authority (PZJA) agreed that the Torres Strait Finfish Fishery Spanish mackerel TAC will be 77 tonnes and the coral trout TAC will be 123 tonnes for the 2024-25 fishing season, which commences on 1 July 2024.

In making its decision the PZJA considered advice from both the Finfish Fishery Resource Assessment Group (FFRAG) and Finfish Fishery Working Group (FFWG). Meeting records of the FFRAG and FFWG are available on the PZJA website (www.pzja.gov.au).

Spanish mackerel is a species for which catch-sharing arrangements are agreed with Papua New Guinea (PNG) under the Torres Strait Treaty. On 25 July 2023 AFMA and the PNG National Fisheries Authority met and agreed that no catch sharing arrangements for Spanish mackerel (or for the prawn or pearl shell fisheries) would be made for the 2024-25 fishing season.

Access to the Fishery is reserved for Traditional Inhabitants who hold a Traditional Inhabitant Boat (TIB) licence and fishers that lease annual sunset licences (the sunset sector) from the Torres Strait Regional Authority (TSRA). Sunset licences may be held by non-traditional inhabitants and allow for a certain amount of catch to be taken. TSRA lease sunset licences and catch allowances on behalf of Traditional Inhabitants. The leasing process for 2024-25 is expected to be completed before the start of the 2024-25 fishing season. AFMA will further advise licence holders on the outcomes of this leasing process including the number of sunset licences issued and total catch leased to these licences.

AFMA will provide catch watch reports throughout the season to advise licence holders on reported catches against the TACs.

Please note that all catch taken in the Torres Strait Finfish Fishery must be accurately weighed and recorded by a licenced fish receiver at the first point of landing. A list of licenced fish receivers who can receive your catch is available on the public register of concession holders available from the PZJA website (<https://www.pzja.gov.au/licences/torres-strait-licence-register>). The public register also contains details of all commercially licenced fishers in Torres Strait including sunset licence holders.
