

3 August 2021

Dear Torres Strait Finfish Fishery Licence Holder,

Catch allowance for the sunset licence sector of Torres Strait Finfish Fishery for the 2021-22 season

I am writing to advise you of the catch allowance for the sunset licence sector of Torres Strait Finfish Fishery Sunset Licences for the 2021-22 season (1 July 2021 to 30 June 2022).

At its 28 January 2021 meeting the Protected Zone Joint Authority (PZJA) decided that the Total Allowable Catches (TAC) for the TSFF will be 74 tonnes for Spanish mackerel and 135 tonnes for coral trout. The PZJA decision was in line with advice from the Torres Strait Finfish Resource Assessment Group and Torres Strait Finfish Working Group. AFMA advised all licence holders of the agreed TACs in writing on 5 February 2021. An additional copy of this letter is enclosed for your reference (**Attachment A**).

Access to the TSFF is reserved for Traditional Inhabitants (the TIB sector) and fishers that lease sunset licences (the sunset sector) from the Torres Strait Regional Authority (TSRA). Sunset licences may be held by non-traditional inhabitants and allow for a certain amount of catch to be taken. Each year since 2008-09 the TSRA, on behalf of traditional inhabitants, has leased these sunset licences (temporary transfers), with specified Spanish mackerel and coral trout catch amounts. Since 2017-18 TSRA have also leased catch allowances for other reef-line finfish species. Sunset licences are granted and varied by AFMA, as the PZJA licensing delegate.

For the 2021-22 fishing season, AFMA as PZJA licensing delegate, has approved the TSRA application for three sunset licences to be temporarily transferred (leased) with a total catch allowance across all licences of:

- a. 50 tonnes of Spanish mackerel,
- b. 25 tonnes of coral trout and
- c. 6 tonnes of other reef-line finfish species across all licences.

Table 1 below provides a summary by species, of the TAC and the catch allowance for the sunset and TIB sectors.

Table 1. 2021-22 fishing season TACs and catch allowance by sector.

Species	Agreed TAC	Sunset sector catch share	TIB sector catch share
Spanish mackerel	74	50	24
Coral trout	135	25	110
Other reef-line species*	n/a	6	No limit

*Note the other reef-line species basket is capped at 30 tonnes per season and applies only to Sunset Licence holders.

AFMA will provide catch watch reports throughout the season to advise licence holders on reported catches against the TACs which are published here: <https://www.pzja.gov.au/fishery-catch-watch-reports>. If required, additional measures will be developed to ensure catches do not exceed the agreed TACs.

Please note that all catch taken in the TSFF must be weighed and recorded by a licenced fisher receiver at the first point of landing. A list of licenced fish receivers who can receive your catch is available on the public register of concession holders available here: <http://www.afma.gov.au/fisheries-services/concession-holders-conditions/>. The public register also contains details of all commercially licenced fishers in Torres Strait including sunset licence holders.

As a reminder to all licence holders, in calculating total catch taken against licenced catch allowances and the total weight of finfish species harvested in the fishery, AFMA uses the conversion factors in Table 2 (below) to convert catch reported in a form other than whole weight (e.g. fillets, gilled and gutted, trunked) back to whole weight.

Table 2. Torres Strait Finfish Fishery conversion ratios used to convert processed catch back to whole weight.

	Mackerel	Coral trout	Other finfish species
Filleted	1.608 : 1	2 : 1	2.5 : 1
Gilled and gutted	1.048 : 1	1.1 : 1	1.1 : 1
Trunked	1.176 : 1	-	-

If you would like further information about the sunset sector catch allowance or any other matter relating to the Torres Strait Finfish Fishery, please do not hesitate to contact the AFMA Torres Strait Office on (07) 4069 1990.

Yours sincerely,

Selina Stoute

05 February 2021

Dear Torres Strait Finfish Fishery Licence Holder,

Fishery licence catch limits for 2021-22 season

I am writing to advise you of the agreed Total Allowable Catch (TAC) limits for commercial fishing in the Torres Strait Finfish Fishery (the Fishery) for the 2021-22 season.

At its 28 January 2021 meeting the Protected Zone Joint Authority (PZJA) agreed that the Torres Strait Finfish Fishery Spanish mackerel TAC will be 74 tonnes and the coral trout TAC will remain unchanged at 135 tonnes for the 2021-22 fishing season, which commences on 1 July 2021.

In making its decision the PZJA considered advice from both the Finfish Resource Assessment Group (FFRAG) and Finfish Working Group (FFWG). Meeting records of the FFRAG and FFWG are available on the PZJA website (www.pzja.gov.au).

Spanish mackerel is a species for which catch-sharing arrangements are agreed with Papua New Guinea (PNG) under the Torres Strait Treaty. On 26 November 2020 AFMA and the PNG National Fisheries Authority met and agreed that no catch sharing arrangements for Spanish mackerel for 2021 (or for the prawn or pearl shell fisheries) would be made for the 2021-22 fishing season.

Access to the Fishery is reserved for Traditional Inhabitants who hold a Traditional Inhabitant Boat (TIB) licence and fishers that lease annual sunset licences (the sunset sector) from the Torres Strait Regional Authority (TSRA). Sunset licences may be held by non-traditional inhabitants and allow for a certain amount of catch to be taken. TSRA lease sunset licences and catch allowances on behalf of Traditional Inhabitants. The leasing process for 2021-22 is expected to be completed before the start of the 2021-22 fishing season. AFMA will further advise licence holders on the outcomes of this leasing process including the number of sunset licences issued and total catch leased to these licences.

AFMA will provide catch watch reports throughout the season to advise licence holders on reported catches against the TACs.

Please note that all catch taken in the Torres Strait Finfish Fishery must be weighed and recorded by a licenced fish receiver at the first point of landing. A list of licenced fish receivers who can receive your catch is available on the public register of concession holders available from the PZJA website (<https://www.pzja.gov.au/notices-and-announcements/notices-and-announcements/torres-strait-licence-register-now-available>). The public register also contains details of all commercially licenced fishers in Torres Strait including sunset licence holders.
