

26 February 2021

Dear TRL Fishery Licence Holder,

**TRL Total Allowable Catch for the 2020-21 Fishing Season is now 420,863 kilograms**

I am writing to advise that Senator the Hon. Jonathon Duniam has determined an increase to the total allowable catch (TAC) of tropical rock lobster (TRL) in the Australian waters of the TRL Fishery from 200 tonnes to 420.863 tonnes for the 2020-21 fishing season (*Torres Strait Fisheries Tropical Rock Lobster (Total Allowable Catch) Amendment Determination (No. 1) 2021*). In line with the increased TAC please find the kilogram value of each quota unit and available catch for each TRL fishery sector outlined in the **Table 1** below.

This TAC increase is consistent with catch sharing arrangements between Australia and Papua New Guinea (PNG) recently agreed under the Torres Strait Treaty. The arrangements comprise agreement on a global TAC of 623.5 tonnes and apportionment of catch between jurisdictions. Due to ongoing COVID-19 border restrictions, cross-endorsement of PNG boats to fish in the Australian waters of the Protected Zone TRL Fishery for the 2020-21 fishing season will not be permitted. AFMA is awaiting further advice from PNG National Fisheries Authority (NFA) on options for utilisation of PNG’s catch entitlement (109.113 tonnes). A further explanation of how catch is shared between Australia and PNG is provided in an Enclosure to this letter.

The global TAC of 623.5 tonnes was recommended by the Tropical Rock Lobster Resource Assessment Group (TRL RAG) and TRL Working Group (TRL WG) and agreed by the Protected Zone Joint Authority at their meeting on 28 January 2021. The global TAC was calculated by applying the results of the 2020 pre-season survey and catch and effort data to the TRL Harvest Strategy. TRLRAG and TRLWG meeting records together with the TRL Harvest strategy are available on the PZJA website.

**Table 1. Quota unit value and available catch for each TRL fishery sector under the increased TAC. All weights are provided in unprocessed weight in kilograms.**

TRL Fishery Sector	TAC (kilograms)	Number of quota units	Value of each quota unit (kilograms)	Available catch (kilograms)
Traditional Inhabitant Boat (TIB) licence holders	420,863	662,016*	0.420864	278,618.876
Transferable Vessel Holder (TVH) licence holders		337,981		142,244.124

As always, licence holders should familiarise themselves with all management arrangements that apply in the TRL Fishery outlined in the TRL Management Arrangements booklet 2020-21 available on the PZJA website at <https://www.pzja.gov.au/management-arrangements-booklets> or by contacting AFMA.

Should you have any further questions on the matters covered in this letter, please contact the AFMA Thursday Island office on 07 4069 1990 or FisheriesTI@afma.gov.au. If you would also like to receive future management updates by email or SMS please contact the AFMA Thursday Island office to update your contact details.

Yours sincerely

Selina Stoute  
Senior Manager, Torres Strait Fisheries

## What are the Australia-PNG catch sharing arrangements this season?

The Torres Strait Treaty recognises the rights of both Australia and PNG to commercial fisheries in the area of the Torres Strait Protected Zone (TSPZ). The TSPZ is an area in the Torres Strait that includes both Australian and PNG waters. These rights include the right of Australia and PNG to fish in the waters of the other country. This practice is known as cross-endorsement and involves both countries nominating an agreed number of commercial fishing boats to fish an agreed share of the TAC. This share is usually 25% of the other country's TAC apportionment, unless otherwise agreed.

At their meeting held on 4 February 2021, AFMA and the PNG National Fisheries Authority (NFA) agreed the following (outlined in **Table 2**):

- a. As per Article 22(1) of the Treaty, the global TAC of 623.5 tonnes is to be apportioned within each jurisdiction equal to 85 per cent (529.975 tonnes) in Australian waters and 15 per cent in PNG waters (93.525 tonnes);
- b. Australian boats can take in Australian waters, part of the cross-endorsement catch entitlement ordinarily available to PNG boats in Australian waters, equivalent to Australia's cross-endorsement catch entitlement in PNG waters (equal to 23.381 tonnes);
- c. In return, AFMA will not seek access to Australia's cross-endorsement catch entitlement in PNG waters and that this can instead be taken by PNG boats in PNG waters.
  - i. This is consistent with the PZJA agreement (on 19 November 2019) that subject to further consultation with stakeholders, the preferred arrangement for utilising Australia's cross-endorsement allocation within PNG's waters is to not seek cross-endorsement but rather pursue a preferential entitlement arrangement under Article 25 of the Treaty.
- d. Due to ongoing COVID-19 border restrictions, cross-endorsement of PNG boats to fish in the Australian waters of the Protected Zone TRL Fishery for the 2020-21 fishing season will not be permitted. AFMA is awaiting further advice from PNG National Fisheries Authority (NFA) on options for utilisation of PNG's catch entitlement (109.113 tonnes).

An illustration of this agreement is attached.

**Table 2. Catch apportionments and provisional cross-endorsement catch entitlements for the TRL Fishery for the 2020-21 fishing season.**

Jurisdiction	Total Apportionment (kg)	Cross-endorsement entitlement to PNG vessels (kg)	Cross-endorsement entitlement to AU vessels (kg)
Australia	529,975 (85%)*	109,112.5 <sup>#</sup>	420,863
PNG	93,525 (15%)*	93,525	0
<b>Total</b>	<b>623,500</b>	<b>202,637.5</b>	<b>420,863</b>

\* Based on the agreed distribution of TRL stocks in the TSPZ TRL Fishery between Australian and PNG waters.

<sup>#</sup> Under Article 23(4) of the Torres Strait Treaty, each Party is entitled to 25% of the catch share in the other Party's jurisdiction. This may be accessed by each Party through cross-endorsement. Under Article 25 of the Treaty, Parties can agree to transfer all or part of a given catch entitlement to the other Party.
